### RENTAL ASSISTANCE

# Stregthening CWG´s way of working-

A feedback survey of CashCap's support to the Regional CWG helped to identify aspects highly valued by stakeholders as well as room for improvement and next steps-

4,8

Partners were very satisfied with the quality, inclusivity and relevance of CashCap's technical support "a very motivating transparency and participatory approach"

## Quality, inclusion and relevance

" Her technical advice has been vital for strategic issues"

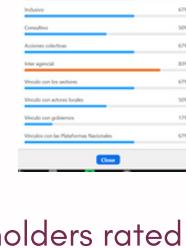

## Systematic integration of CVA

High satisfaction. Room for improvement: "accompaniment in training processes to country CWG members"

## Capacity Building

## 9 out 11 were aware of the exit strategy , and 67% valued it as excellent

EXIT: Defined as the actions taken by the CashCap specialist to terminate the support period.

100% stakeholders rated as high and excellent contribution to multi sector approach and inter agency way of working

## Multi Sector & Inter agency

High satisfaction. Room for improvement.  
"We think there is a need to provide even more support at the country level/ to country groups"

## Technical support to National CWGs

**100% believe that CashCap's support helped Regional CWG to grow stronger beyond the deployment period**

## SUGGESTIONS

"The Cash sectoral issues are a priority in my opinion, because many organizations have done MPCs but there is still a disconnection with the specific sectors, which Jimena started to work on. However, it would be interesting to develop it further. The exit strategy of the Mpc is also a priority for R4V because we already see a decrease in funding for emergency programs and COVID"
