A COMPANION GUIDE TO THE IASC GBV GUIDELINES | MAY 2019

Overview of Toolkit for Optimizing Cash-based Interventions for Protection from Gender-based Violence: Mainstreaming GBV Considerations in CBIs and Utilizing Cash in GBV Response

Cash Based Assistance - Programme Quality Toolbox

Overall
Preparedness
Situation Analysis
Response Analysis
Programme Design
Implementation
Monitoring
Evaluation

The compendium is a companion guide

MINIMUM STANDARDS

for Gender-Based Violence in Emergencies Programming

Guidelines for Integrating Gender-Based Violence Interventions in Humanitarian Action

Reducing risk, promoting resilience and aiding recovery

Audience of Compendium

- **Field-based** humanitarian practitioners across all areas or sectors of humanitarian response who use cash or vouchers in their programmes
- **GBV specialists** who are considering using CVA in their programming
- **Members of the humanitarian country team**
- **Humanitarian coordinators** and **donors** who advise and monitor teams and partners on GBV mainstreaming/integration

What will practitioners accomplish by using the Compendium?

- **Differentiate between**
 - GBV risk mitigation in CVA
 - Potential ways in which CVA can contribute to GBV prevention and response
- **Identify practical actions that CVA and/or sector specialists and other humanitarian actors can take to identify and mitigate the risks of GBV in CVA**
- **Identify practical actions that GBV specialists can take to incorporate GBV-protective CVA in their GBV programming**

Sections

- **Part I: for everyone**—Collective Responsibility; AAP cross-cutting guidance.
- **Part II: for CVA and/or sector specialists, coordinators, donors**—Key considerations for integrating GBV risk mitigation into CVA.
- **Part III: for GBV specialists, coordinators, donors**—Key considerations for using CVA as part of GBV specialised programming.

Features

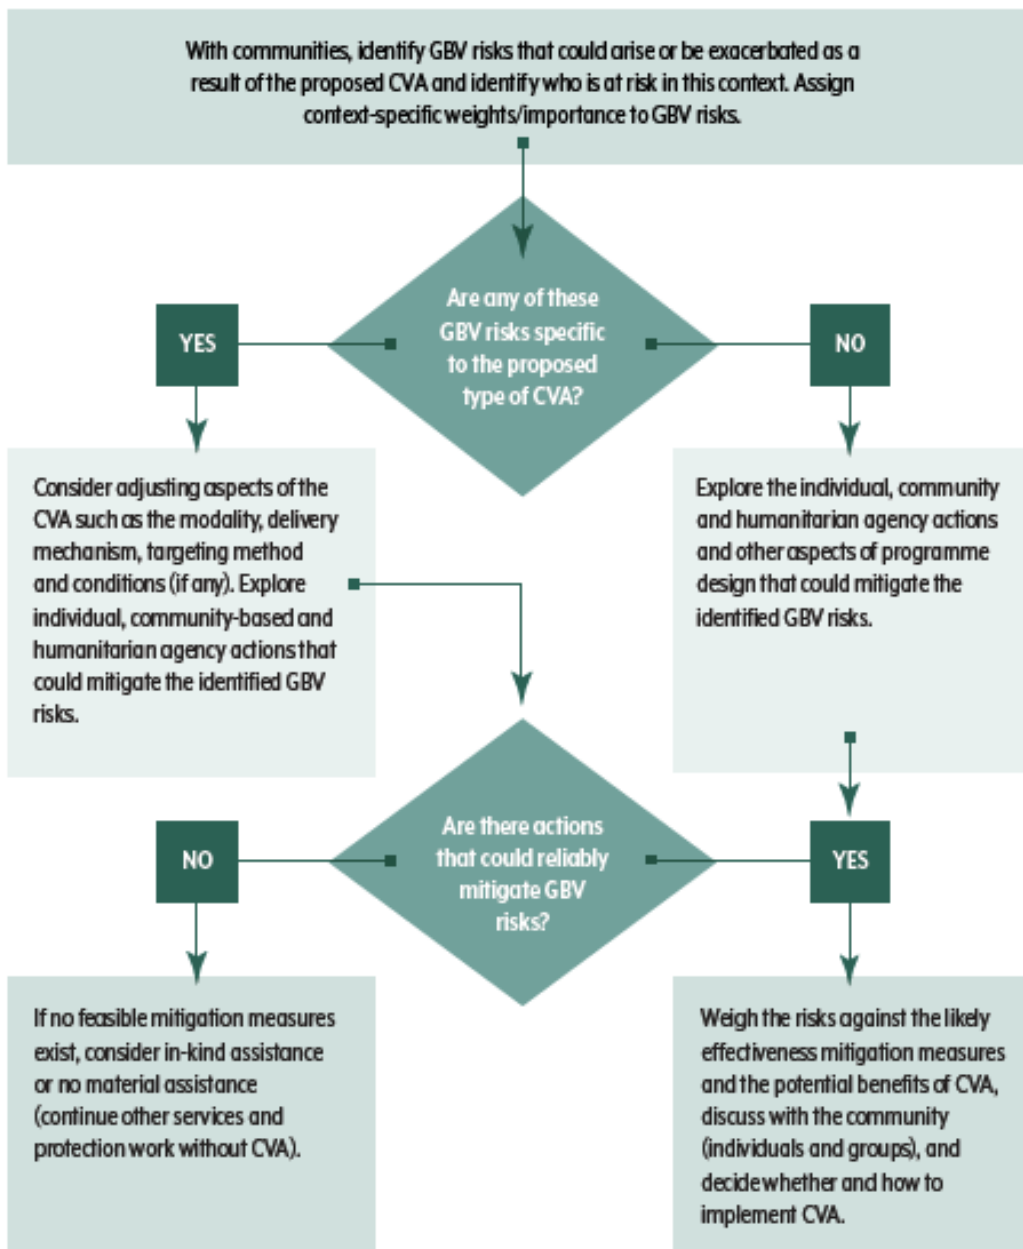

- Easy-to-find text boxes with critical field learning
- Hyperlinks to
 - GBV Guidelines
 - CaLP PQ Toolbox
 - “How to” - newest and most relevant technical guidance and tools. Keeps the Compendium relatively short.
 - Reference material – evidence reviews
- Relevance for seasoned GBV Guidelines users as well as newcomers

New tools – 1 page each

- Modality Decision Tree and GBV Risk Analysis Tool for CVA
- Analytical Tool - GBV Risks, Economic drivers and potential CVA

MODALITY DECISION TREE – CONSIDERING GBV RISKS RELATED TO MODALITY

Annex 4: Template GBV Risk Analysis for CVA
